Delia

Department of Chemistry
Acharya Narendra Dev College
Action Taken Report on Students Feedback

The Department of Chemistry regularly takes feedback from the students to improve the teaching learning process. The feedback is taken by individual teachers from their classes regarding the comprehension of subject and the infrastructural facilities provided by the college. The College also takes general feedback from the students which is then shared with the faculty. The department has taken the following action based on the student's feedback:

1. The department regularly guides the first year students through mentor-mentee interactions to help them settle in the college life.
2. The mentor-mentee meetings for all the students are held to guide the students and get their feedback.
3. Based on the requirements and suggestions made by the students, the department recommends the books to be purchased in the library.
4. The department has taken steps to improve the laboratory and class room infrastructure, ensuring safety and cleanliness and availability of the required chemicals and apparatus, at all times, including the Summer Projects under the ELITE program.
5. The faculty compiles a list of topics from the syllabus which many students find difficult to comprehend. To help the students in these topics, additional learning materials like demo videos for laboratory procedures, related blogs and online materials are provided to all the students.
6. On the basis of feedback provided by the students, the department organizes seminars and workshops to guide them in their career prospects.
7. The students are provided with advanced learning materials beyond the syllabus requirements, if they express the need for it.
8. The students are encouraged to take initiative to organize activities like society functions, talks and other student centric departmental activities.
9. The senior faculty members of the department regularly make an effort to sensitise the students towards various issues.
10. To involve the active participation of the students in the learning process, the students are encouraged to give presentation and have group discussions.

Bhagat

Action Taken Report (CS Department)

Students complained about outdated PC configurations and slow wi-fi connectivity. In order to improve the infrastructure of the department following purchases have been done:

1. High Configuration Pcs

A total of 25, **HP 600 G6 MT** systems have been purchased for supporting the high configuration requirements for the practicals of subjects like Android Programming, Data Analysis and Visualization, Computer Graphics, Machine Learning, etc..

2. Wi-fi Connection

A dedicated high speed (300 Mbps) wi-fi connection is purchased for the department of computer science. The faculty, students, and staff can access this wi-fi in addition to college wi-fi when high bandwidth is needed. Two routers were installed in the Lab 3 and Lab 5 of the CS Department.

3. Smart Boards

Two interactive whiteboards have been installed in Lab 4 and Lab 5 for making the teaching learning process more interactive and fun.

4. MATLAB

MATLAB is highly used in the areas of deep learning and machine learning, signal processing and communications, image and video processing, control systems, test and measurement, computational finance, and computational biology. Department of Computer Science has purchased the MATLAB for supporting the research and development requirement of students and teachers in the above said areas with following toolboxes:

- MATLAB
- Data Acquisition Toolbox
- Statistics and Machine Learning Toolbox
- Deep Learning Toolbox

5. Digital Trainer Kits

A Digital Trainer Kit is an educational tool that helps students learn the concepts of Digital Electronics using self contained set of electronic circuits that can be interlinked by students to create working circuits. Following kits have been purchased:

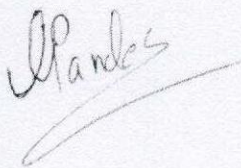

- Basic Logic Gates Trainer Board
- Flip Flop Trainer Kit
- Multiplexer and Demultiplexer Trainer

Action Taken Report on Students Feedback about Department of Biomedical Science (2021-22)

1. Feedback from students of Department of Biomedical Science was collected, analyzed and subsequent following steps were undertaken to further improve the quality of education at the Department.
2. The faculties of the department were made aware of the feedback details and sensitized towards addressing students concerns in a timely manner.
3. Faculties were made available with appropriate ICT facilities and encouraged to adopt more innovative techniques and make effective use of ICT.
4. Periodic estimation of lab stocks (consumable and equipment) was done and appropriate purchasing was undertaken to ensure that maximal student gain hands-on training during practicals.
5. Computers were made available to each student for gaining hands-on training during subject practicals such as Methods in Epidemiological Analysis and Computational Biology and Drug Design.
6. Several international and national scientists and field experts were invited for enhancing dynamic information sharing and learning with students. This was aimed to help them connect with resource person, gain motivation and create career opportunities in the future.
7. Department's Alumni studying/working in India and abroad in various capacities were invited as resource persons for career counseling sessions. This helped students to clear their doubts, get real time perspective from a senior and forge life-long alliances.
8. Students, faculties and non-teaching staff were made aware of significance and the proper ways of collecting and disposing biomedical waste. The disposal of bio-waste material collected during practicals has been outsourced.

University of Delhi

Action Taken Report on Students Feedback about Department of Zoology (2021-22)

Zoology Department has taken the feedback from the students seriously and has taken the following corrective steps:

1. The faculty of the Department has been asked to address student concerns in a timely manner.
2. The Department has provided more resources and materials to enhance the quality of education.
3. The Department has increased its focus on interactive learning other activities to facilitate student engagement.
4. The Department has also organized various hands on workshops and seminars to provide additional training and skills to students.
5. The Department has taken steps to improve the infrastructure of the laboratories and class rooms. These spaces have been equipped with LCD projectors.
6. The arrangements have been made to keep the laboratories clean after end of each practical class
7. The disposal of biowaste material has been outsourced.
8. The Department has also launched an awareness campaign to educate students about the importance of taking feedback seriously.

Department of Physics
Acharya Narendra Dev College
Action Taken Report on Students Feedback
(2021 – 22)

Constantly improving department functioning is a complex process that involves identifying and addressing various factors affecting performance and Department of Physics believes in taking feedback from the students seriously to this end. The Department proactively follows the enumerated steps for continuously adjusting and enhancing performance:

1. Promotes a culture of continuous improvement and innovation, encouraging all stakeholders including faculty, staff and students to generate and implement new ideas and solutions.
2. The faculty regularly interact with students and mentor them to establish clear goals and expectations for the department, including measurable objectives and performance metrics.
3. The departments foster a positive and collaborative work environment that encourages open communication, teamwork, and a sense of ownership and accountability during interaction with all stakeholders.
4. The department in accordance with the college's student-centric philosophy, tries to address all matters relevant to the students' academic pursuits and personal development within a specified time frame.
5. Build strong relationships with external stakeholders, including regulatory bodies, industry associations, and other relevant organizations.
6. Ensure compliance with applicable laws, regulations, and policies, and maintain high ethical standards in all departmental activities.
7. As per the mandate of NEP the department has already begun to implement appropriate technology and software systems to streamline operations and enhance productivity, besides monitoring performance regularly and using generated data to identify areas for improvement and take informed decisions.
8. The department has strengthened its emphasis on interactive learning, group discussions, and undergraduate research studies to enhance teaching-learning process besides upgrading UG laboratories with state-of-the-art instruments and augmenting classrooms with blazing fast wi-fi and LCD projectors

Department of Mathematics
Action Taken Report on Students Feedback
(2021-22)

The Department of Mathematics has taken the following initiatives based on the feedback of students:

- 1 The faculty has agreed to address concern of students on constant basis with regular mentorship meetings regarding academic and any other matters.
- 2 The Department has included more practical learning opportunities like organizing interactive workshops, seminars which are more student oriented and application based.
- 3 Initiatives have been taken to improve lab and classroom hygiene.
- 4 The Department has taken steps to arrange more books for the students according to the new syllabus.
- 5 Initiatives have been taken to arrange for more field trips or industrial visits for hands on training to students.
- 6 Students are being encouraged to organize and participate enthusiastically in group discussions, quizzes through society functions more frequently.

Action Taken Report
Department of Electronics

The faculty has regular deliberations to make the course teaching student centric and technologically upgraded. The endeavours encourage students to pursue their higher studies in electronics and also make them industry employable. The faculty has been following a multi throng approach to achieve this. The details are as under:

1. The faculty of the department is deeply involved in the curriculum designing as well as framing of the syllabus for the UG programme in Electronics under CBCS with LOCF and UGCF 2022 under NEP 2020. They have been able to introduce multiple papers that are industry 4.0 compatible and fulfills the desire of the industry.
2. Faculty has frequent interaction with its alumni, who are working in industry, and invite them to deliver lectures and conduct workshops for its students. Talks on Mobile App development, workshops on IOT, LabVIEW and Arduino were planned in this series.
3. Faculty has good connect with researchers and scientists in other Universities and national labs. Department organized talks on Wireless Communication and Electronic Warfare, Satellite communication and Magnetic Nano-structures based Microwave Monolithic signal processing devices to give flavour of contemporary research and an opportunity to students to interact with external experts.
4. The department faculty, physics faculty as well as faculty from other colleges is approached to conduct workshops in contemporary and relevant areas. The induction workshop, Creative Thinking and Entrepreneurial Skills, All You Need to Know About Writing a Research Paper, Learning Holography, Digital Transformation and it's impact on the future after Covid-19 etc have been organized as part of this initiative.
5. The faculty also approach international faculty for college visit and for lecture delivery. Funds are arranged from external agencies for the visit by an international expert. Prof. Marija Strojnik, Astrophysicist and Distinguished Professor at Optical Research Center, Mexico delivered a talk on Autonomous Navigation System with Intelligent Camera for Space and Earth and had a full day interaction with students. Dr. Gaurav Sharma, Professor of Electrical & Computer Engineering, University of Rochester, New York delivered a talk on Imaging Arithmetic (Physics + Maths).
6. The student constantly deliberate amongst themselves on various scientific topics under the SPIE Student Chapter , University of Delhi at ANDC and come up with various ideas. They discuss in detail with the faculty and suggest areas in which workshops/ training can be organized. Based on their suggestions, department has organized multiple five days workshops on Hybrid Mobile App development using Flutter programming , Data Science using Python, Full Stack Web Development using MERN, Cloud computing etc. Sometimes students come up with very different ideas of the workshops like on Professional Conduct with Positive Attitude, Career Opportunities in Publishing. These turn out very interesting at the end.

7. The inherent gain from these activities is that student gain great confidence and they become ready to act as resource persons to conduct workshop for their peers in Train the Trainer approach. Many activities/workshops conducted by students in this chain are Raspberry Pi Workshop, Arduino Masterclass, Optical Colour Mixing, Robo Race etc. Further, they translate their hands-on learning by presenting their project/research work in different events/conferences etc. The multiple projects presented in : New Frontiers in Science are testimony to this.
8. Department faculty as well as non-teaching staff keeps on getting experimental training in new areas of curriculum. Training Workshop and demonstration of Lab Equipment for Teaching and Non- Teaching Faculty, Training Workshop and demonstration of 'Control Lab with software and Data Acquisition and Universal Dev Board with FPGA and CPLD as part f this learning process.

ACTION TAKEN REPORT

Department of Botany
Acharya Narendra Dev College
University of Delhi

Department of Botany has taken following actions in response to the feedback provided by the students. The report includes the steps taken to address the feedback and the results of the actions taken.

1. The projectors of classrooms and laboratories were checked and updated to concentrate more on ICT based learning of students.
2. Work has been done to improve overall hygiene of laboratories post covid.
3. The disposal mechanism has been reviewed especially for hazardous chemicals and carcinogens.
4. The students along with regular classroom lectures has been motivated to learn skills like data analysis using statistical softwares, mushroom farming, microbial culture techniques etc.
5. The faculty has been requested to address concern of students on constant basis along with regular mentorship meetings.
6. The Department has upgraded laboratory facilities to provide students with modern and sophisticated equipment
7. The department has included more practical learning opportunities. This includes increasing the number of field trips, providing hands-on training in laboratory experiments, and organizing interactive workshops.

Ashukla

Department of Commerce
Action Taken Report on Students Feedback
(2021-22)

The Department of Commerce has taken the feedback from the students seriously and has taken the following corrective steps:

1. The department of commerce tries to address student concerns in a time bound manner in tune with the student centric approach of the college.
2. The faculty regularly meet and mentor the students regarding academic and other matters.
3. To enhance the quality of education, the department tries to integrate online learning material with the resources and materials available offline.
4. To improve teaching-learning experience, the department has increased its focus on interactive learning, group discussions and case studies.
5. The Department has also organized various hands on workshops and seminars to provide additional training and skills to students to make them future ready.
6. The Department has taken steps for purchase of latest books as per new course curriculum under NEP.
7. The Department has taken steps to improve the infrastructure of the labs and class rooms. These spaces have been equipped with LCD projectors.
8. The arrangements have been made to keep the classrooms, tutorial rooms and labs clean.
9. The Department also launched an awareness campaign to educate students about the importance of giving feedback seriously.
10. Considering the student's requirement, faculty is encouraged to follow more humane approach with regard to students' issues.
11. To facilitate student engagement, students are encouraged to organise different society events and functions under faculty guidance rather than being mute spectators.
