STAR

College Scheme

Science and Innovation

Physical Sciences

The systematic study of the inorganic world.

[Physics](#)[Electronics](#)

Biological Sciences

The study of life, life cycles, adaptations and environment.

Computer Science

Computational Simulations

Chemical Sciences

Chemical Phenomena

Zoology

List of experiments:-

Isolation of Genomic DNA from *E. coli* DH5 α cells

DNA is found both in prokaryotes and eukaryotes. In prokaryotes, DNA is double stranded and circular and is found throughout the cytoplasm called nucleoid. In eukaryotes, DNA is located in nucleus and in mitochondria or chloroplasts.

Analysis of Height and Weight of 100 individuals
