After this period of 90 days, all data will be deleted from TCS records. In case customer data has to be extracted and provided within the first year of the Agreement, additional one time data extraction charges of 25,000 will apply.
- f. **Disaster Recovery:** A Disaster Recovery Data Center is in operation. Data from the primary data center is mirrored onto the DR Data Center near real-time. Non implementation of a change request cannot be the basis for non-payment of subscription invoice. Any change requested by customer, will be analyzed for feasibility. If found feasible, the change will be done as part of product roadmap development and additional charges and timelines will be mutually agreed upon. If customers had asked for some changes to the system and these changes were either not done or completed after some time, and this has resulted in delayed implementation of some of the capabilities, customer cannot ask for waiver of complete or portion of the invoices citing the lack of usage of certain modules or capabilities.
